

ALLOY BOWSPRIT / BOUT DEHORS ALUMINIUM

Fitted-in sheave / Réa intégré

Bridle attachment
Accroche sous-barbe

Automatic locking device

Plot champignon

Automatic locking device

- Easy fixation (automatic locking device on deck fixing blocks);
- Rotating collar captive from the section: removable bowsprit for storage alongside one boat edge

Complete kit including :

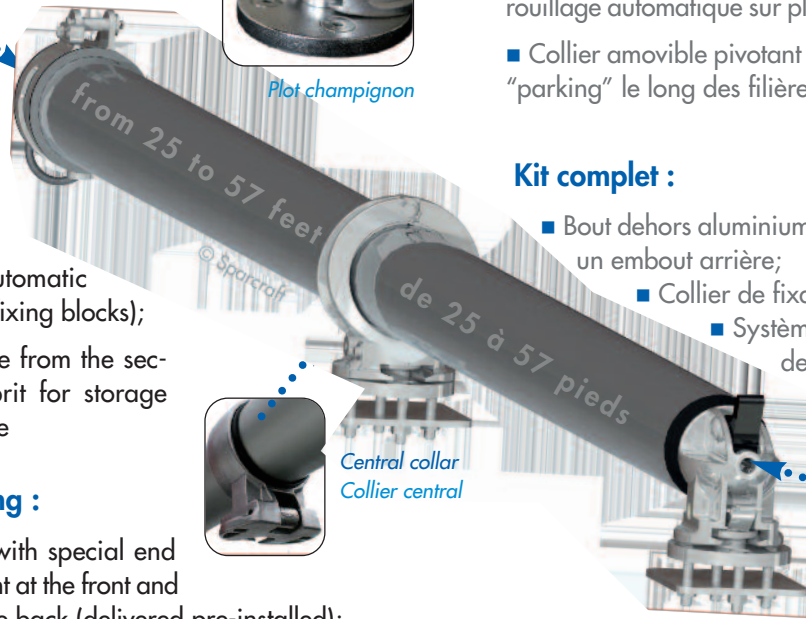

- Aluminium bowsprit with special end fittings : bridle attachment at the front and fixing block device at the back (delivered pre-installed);
- Adjustable Central fixing collar;
- Deck fitting blocks and two counter plates

Système simple à plots

- Facile à installer grâce à un système de verrouillage automatique sur plots (platines) de pont;
- Collier amovible pivotant : permet une position "parking" le long des filières.

Kit complet :

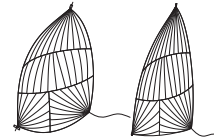

- Bout dehors aluminium avec embout avant et un embout arrière;
- Collier de fixation central;
- Système de plots complet et deux contreplaques.

Central collar
Collier central

integrated line stopper
Coinceur intégré
